

Focus on Cyber Security at the UK's Flagship Security Event

No longer can physical and cyber security be looked at separately since an attack on an organisation's systems can cause physical infrastructure to fail. More and more security professionals are realising the importance of integrating cyber solutions with physical security technologies.

Are you ready to face up to one of the biggest security threats to your business?

- The Security Director's Practical Guide to Cyber Security Workshops run in association with Cyber Rescue offer hands-on, practical sessions including an interactive crisis simulation role play
- Continue learning through additional discussions, case studies and sessions addressing cyber security challenges in the extensive free to attend conference programme
- Meet your peers and build new relationships through formal and informal networking opportunities – over 30% of attendees have indicated cyber security is main area of interest
- Discover the latest products and innovations from leading companies including QinetiQ, Sungard AS and JTOL by visiting the Cyber Trail on the exhibition show floor

PLUS

The Great Cyber Debate: The cyber threat to CNI has been grossly exaggerated – 1 Dec, 1555-1630

In a world where everything is connected in some way having the necessary cyber and physical security infrastructure is more critical than ever. The Great Live Debate will discuss how real the threat is, what's the best case scenario in the event of a cyber attack and are we taking all the necessary measures to protect our infrastructure.

Cyber Security Workshop

In association with

Security directors are the grown ups at the table when crisis hits an organisation. The cascade of consequences that follows a major breach is overwhelming for many organisations and security directors need to lead on business continuity, preparing their organisation to engage effectively with law enforcement and regulators while maintaining effective command and control through the crisis. The Cyber Rescue Alliance helps security directors lead recovery when hackers have broken through.

The Security Director's Practical Guide to Cyber Security

- What the CEO needs their Security Director to do to protect against Cyber Threats
- How the Security Director can spot vulnerabilities the IT team have missed
- What the Security Director should know about Cyber Insurance
- Surprises your CEO may suffer during a major Cyber Attack
- Why Security Directors must help lead Recovery from a major Cyber Attack

Crisis Simulation: The Security Director helping to lead Response to a Cyber Attack

- This Role Play runs through decisions Security Directors should be ready for
- The Simulation is based on real-life cases, at medium-large businesses
- Participants will experience the "shock & ambiguity" of a major attack
- Security Directors will learn the consequences of typical choices
- How the Security Director can prepare their Executive Team for Cyber Attack

30 November	1 December
1000 – 1115	1415 – 1530
1130 – 1245	
1515 – 1630	

The workshops are free to attend but places are strictly limited to Security Directors, Heads of Security, Directors of Security and Risk Directors.

Register for the Workshop at uksecurityexpo.com/cyber

Kevin Duffey, Managing Director, Cyber Rescue has over 30 years experience including overseeing the evacuation of 4,000 people from Egypt and Libya during the Arab Spring. Kevin was previously MD of G4S International and as a member of the UK Board of Logica, oversaw cyber security wins with GCHQ and MOD.

Barrie Millett, Resilience Adviser, Cyber Rescue, is an award winning leader in risk mitigation. Barrie has led security teams at blue-chip firms including E.ON and GE and is currently the Chairman of the Joint Risk Audit and Assurance Panel of the Leicestershire Police.

Additional Cyber Focused Sessions

30 NOVEMBER

1145-1215 Design and Security Considerations for Intelligent Buildings
John Taylor, Security Principal, Hoare Lee

1420-1445 The New National Cyber Security Centre
Ben Lowater, Deputy Director Private Sector & CNI, CESG

1445-1510 Addressing the Cyber Skills Gap
Brian Higgins, ISSA UK and (ISC)2

1530-1555 Cyber Securing the Built Environment
Hugh Boyes, Cyber Security Lead, Institution of Engineering and Technology (IET), Principal Fellow, WMG, University of Warwick and Director, Bodvoc Ltd

1615-1645 Cyber Security Challenges facing Global Air Traffic Management
Francesco Di Maio, Head – Security Department, ENAV (Italian Air Navigation Services Provider) and CANSO ATM Security Working Group Chair

1 DECEMBER

1030-1100 Mitigating Cyber Threats in the Maritime Environment
Dr Daniel Prince, Associate Director for Security Lancaster, Lancaster University

1050-1115 Information exchange and management supporting resilience and security for critical infrastructure
Mike Fuller MBE, Global Resilience Partners Ltd

1130-1150 Trustworthy Industrial Control Systems
Professor Chris Hankin, Director, Institute for Security Science & Technology, Imperial College London

1150-1210 Cyber Threat to the Electricity Sector
Barrie Millett, Former Head of HSSE & Resilience, E.ON UK

1210-1230 Cyber in Relation to Terrorism
Dr Daniel Prince, Associate Director for Security Lancaster, Lancaster University

1230-1300 Mitigating Insider Risk: Which cyber insiders should most concern the boards of CNI organisations and how can the risk be mitigated
Chris Hurrant OBE, Senior Associate Fellow, UCL Institute for Security & Resilience Studies

1400-1425 Ramifications to the CNI of cyber vulnerabilities
Brian Higgins, (ISC)2 and ISSA UK

1425-1450 How to manage the risks and opportunities of increasing connectivity in CNI
Rob Hayes, Director, Deloitte

1450-1515 Online collaboration, information sharing, and flatter management structures achieve results. The bad guys get this – do we?
Dr Dinos Kerigan-Kyrou, Emerging Security Challenges Working Group Partnership for Peace Consortium, Marshall Center

1515-1535 Cyber security challenges – addressing interdependencies and resilience
Francesco Di Maio, Head – Security Department, ENAV (Italian Air Navigation Services Provider) and CANSO ATM Security Working Group Chair

1535-1555 Protecting small businesses in the digital economy
Malcolm Warr, FSB Home Affairs Committee

1555-1630 The Great Cyber Debate: The cyber threat to CNI has been grossly exaggerated

KEY SPEAKERS INCLUDE:

Francesco Di Maio,
Head – Security
Department, ENAV
(Italian Air Navigation
Services Provider)

John Taylor,
Security Principal,
Hoare Lee

Malcolm Warr,
FSB Home Affairs
Committee

Daniel Prince,
Associate Director for
Security Lancaster,
Lancaster University

Hugh Boyes,
Cyber Security
Lead, Institution of
Engineering and
Technology (IET)

Chris Hurrin OBE,
Senior Associate
Fellow, UCL Institute
for Security &
Resilience Studies

Ben Lowater,
Deputy Director
Private Sector
and CNI, CESG

Barrie Millet,
Former Head of
HSSE & Resilience,
E.ON UK

**Professor Chris
Hankin,**
Director, Institute for
Security Science and
Technology, Imperial
College London

Brian Higgins,
ISSA UK and (ISC)²

Mike Fuller MBE,
Global Resilience
Partners Ltd

Rob Hayes,
Director, Deloitte

Visit the Cyber Trail on the Exhibition Show Floor

Discover the latest products and innovations from leading companies. SungardAS, Qinetiq, Seven Technologies, Templar Executives, InfoArmor, Resilio, JTOL and i-Spy are amongst some of the major suppliers who will be part of the Cyber Trail.

With over 8,000 visitors, 250 exhibitors, 6 conferences, workshops and live demos, UK Security Expo is the flagship event for a global audience of transport, government, energy, major events, communications, finance, utilities and private sector security.

The high level educational programmes are open to all visitors free of charge and feature CPD verified conferences, workshops, live demonstrations and more.
